Description of Petition		

As stated in article 3 of the MSU Congress bylaws, a Student Petition regarding a Congress or College action needs to abide by this official template to pass. Under ordinary circumstances and in the advent that the required number of signatures is accumulated, it is the obligation for Congress to call a Great Assembly (GA) during which a vote by simple majority will determine if a referendum is issued. If running a referendum passes, then the referendum must run on Omnivox no more than two days after the GA vote.

All running petitions should be disclosed to Congress. Progress made in the accumulation of signatures should be reported to Congress on a regular basis (e.g.: every time a threshold of 50 signatures is reached), in order to ensure efficient collaboration, and to allow for an eventual Congress endorsement. Furthermore, organizers should be prepared to provide additional information regarding the ongoing petition to Congress upon request (e.g.: the motivation of the students, any comments that have been communicated to the organizers, envisioned response).
